Life here is too strenuous for me. I am going to quit by way of the North River. I thought of taking laudanum and being found, on the streets, but they have a nasty habit in New York of hustling a man to a hospital and resuccitating him to undergo more trouble. I have a wife and three children at home in Scotland, who are very dear to me, and whom to leave in a selfish and cowardly manner causes me the only regret I feel at ending an existence which has been fairly happy till about a year ago. With this I send you my papers (references and Masonic diplomas). If you can be interested you my papers (references and Masonic diplomas).
